WILL perform at the CAMP THEATER each Monday and Thursday evenings, until further notice, with a change of programme each night. dec13-tf

McCLELLAN'S RESIGNATION.—The following is taken from the proof sheet of the President's order on the subject of McClellan's resignation:

WAR DEPARTMENT, ADJT. GENERAL'S OFFICE, Washington, Nov. 14th 1864.

Ordered by the President—First, that the resignation of Geo. B. McClellan as Major General in the United States Army, dated November 8th, and received by the Adjutant Genaral on the 10th instant, be accepted as of the 8th of November.

Second—That for personal gallantry, military skill and just confidence in the courage and patriotism of his troops, displayed by Philip A. Sheridan on the 19th day of October, at Cedar Run, where, under the blessings of Providence, the routed army was reorganised and national disaster was averted, and a brilliant victory achived over the rebels the third time in a pitched battle within thirty days, Geu. Sheridan is appointed Major General in the United States Army, to rank as such from the 8th day of November, 1864. By order of the President of the United States.

E. D. TOWNSEND, A. A. G.

GARIBALDI.—It is not easy to conceive anything finer, simpler, more thoroughly unoffected or more truly dignified than the man himself. His noble head, his clear, honest, brown eye, his finely-traced mouth, beautiful as a woman's, and only strung up to sternness when anything ignoble or mean had outraged him; and, last of all, his voice contains a fascination perfectly irresistible, allied, as you know and felt these graces were, with a thoroughly pure untarnished nature. The true measure of the man lies in the fact that, though his life has been a series of the boldest and most daring achievements, his courage is about the very last quality uppermost in your mind when you meet him It is of the winning softness of his look and manner, his kind thoughtfulness for others, his sincere pity for all suffering, his gentleness, his modesty, his many sense of brotherhood with the very humblest of the men who have loved him, that you think—these are the traits that throw all his heroism into shadow; and all the glory of the conqueror places before the simplest virtues of the man.—*S. F. Flag.*

IT is stated that a Yankee genius has invented a clock which, in accordance with the spirit of the times, indicates the hours of the day by firing a revolver, instead of striking upon a bell as usual. For one o'cluck one barrel of the revolver is discharged; for two o'clock two barrels, and so on, up to twelve; there being two revolvers required, with six barrels each, to strike the hours of noon and midnight.

WHY is a ten cent piece like a handsome jewel? Because its a dime and of some value.

The Daily Union Vedette.

TUESDAY MORNING, DEC. 27, 1864.

THE CHRISTMAS BALL.

The Christmas Ball of the Y. M. Literary Association, given at the Salt Lake House, on Friday evening last, was the most *recherche* and pleasant affair of the kind, perhaps, ever given in Utah. The hall was beautifully decorated with flags, evergreens and oil paintings—the music was superb—the toilets of the ladies beautiful, and the scene gay and hilarious. All seemed to enjoy themselves, and on the whole, the affair was a credit to all concerned. Mr. Little had prepared a sumptuous repast with all the delicacies of the season, and the capacious dining rooms (three in number) were thronged throughout the evening with the dancers, as they sought from time to time to partake of the refreshments. We approbate the plan inaugurated by Mr. Little—of having a table set all night, instead of having one formal supper.

The floor committee did wonders on their part. Notwithstanding the crowd which thronged the hall, there was no confusion, no hurry, but everything went off as merry as a marriage "belle."

There were about ninety couples present—a larger company than we supposed could be assembled in Salt Lake City. The Camp was well represented by officers and their wives, and City society mingled gaily with the scene.

We could not help contrasting the evidences which this ball gave with those of former years. Even one year ago it was almost impossible to gather a company in Salt Lake of (so called) Gentiles. But the ball proved the rapid progress we are making in the organization of good society out in the wilderness. Many new faces, whole household's of new families were there.

It is evident that society is forming here on a sure and substantial basis, and that a new era in social as well as political and industrial affairs, *has* dawned upon the Territory.

We congratulate the association which gave this ball upon the success which has attended their first effort in this direction. Let them in future be equally careful and considerate and their reunions will be hailed by all respectable and worthy citizens with equal pleasure, and the same succes will attend them.

A VETERAN REGIMENT FOR CALIFORNIA.—We see by an article in the *S. F. Bulletin* of the 16th, that measures are being taken to raise a regiment of veteran volunteers on this coast, to serve in Maj-Gen. Hancock's corps, now organizing near Washington. Application has been made for the necessary authority of the War Department. This is in accordance with an intimation given recently in the telegraphic news from the East. As the California volunteers have always had a desire to engage in more active service against the rebellion, they will undoubtedly embrace with eagerness the opportunity presented.

IN a late number of the San Francisco *Flag*, we find an expose of a treasonable organization, of which that miserable apostate and traitor Beriah Brown, is Commander-in-chief. But we can knock the spots off of Beriah's institution here in Utah. We have in this vicinity a secret association whose members are bound by the most horrid oaths and penalties, to do all they can through life, to destroy the Government of the United States, and if not successful in their lifetime, they are to entail it upon their children. We presume our readers will scarcely believe this, but its as true as gospel.

THE UTAH LEGISLATURE.—We understand that the Legislature of Utah, which has been in session some weeks, have passed a couple of "relief bills" and "one resolution." The latter was to exclude the VEDETTE, the only loyal paper in the Territory, from the number of papers supplied to members. Thank you, gentlemen, there is a good time coming. Don't forget, as usual, to declare Camp Douglas a "nuisance."

CHRISTMAS 1864.—Christmas passed off in camp and city in fine style. Most citizens, military and civil, observed Saturday in becoming and most happy style—while many postponed their festivities until yesterday (Monday.) The consequence was that a double Christmas has been enjoyed—Saturday, Sunday and Monday. The little ones had a fine time. All day long Saturday, Sunday and Monday, the youngsters thronged Main street, and, for a novelty in Utah, we seen and heard pack after pack of Chinese firecrackers exploded. Our market reporter informs us officially, "that reports are in circulation that fire crackers are going off with alarming rapidity." On Saturday the Market House was decked off in the most gorgeous of Christmas styles, beef, splendid and fat, mutton and turkeys, luscious and tempting, young pigs and old ones, large and small, in quantities illimitable and with ribbons innumerable. The butchers vied with each other, and all did wondrously well. We venture to say that few Metropolitan Markets presented a finer display of good things.

The remark was general, "What a change from even last year." In fact, change and improvement is most marked all around us. The Christmas display at the markets, in the stores, on the streets, every where, exemplified that Utah is emerging from her chrysalis, her shell and bursting forth into a new, and improved, a regenerated life. Prosperity blesses our people on every hand. Happiness and contentment beam from many a face. Comfort is general, and luxury becoming more universal than of yore.

Mrs. Grundy and the grumblers may growl. Some may not "see it," but the fact of true progress in all the elements of prosperity and happinesss is none the less apparent even to the casual observer. So mote it be.

[COMMUNICATED.]

THE LAWS OF UTAH.

No. 9.

A man dying and leaving a wife or family, no portion of his property exempt by law from execution is considered assets, and such property is not liable for any debt against the estate. On this point the law appears to conflict. There is a law upon the Statute book defining the property exempt from execution—a wise and excellent act. But the law of March 3d 1852, (R. S. p. 149.) declaring a homestead exempt from execution, defines no limit, and the homestead is exempted from the payment of any debt upon the death of the husband or father. The homestead may be worth only five hundred dollars or it may be worth half a million; the law is the same. The great objection to this law lies in the supposed fact, shown upon its face, that no limit is fixed to the value of the estate, which in effect cuts off claims that should be paid when there is property enough to do so, in excess of a reasonable amount set aside for homestead purposes.

It is not understood by the writer, that during the life of the man, having a family, this law exempts his property from execution. It is only in the event of his death that the law intervenes between his estate and his creditors. It will not be understood by this remark that the writer has overlooked the law which exempts certain property necessary for the successful prosecution of a man's business or profession.

Illegitimate children and their mothers inherit in like manner from the father, whether acknowledged by him or not, provided the court is satisfied from evidence that he is the father of the illegitimate children.

The Legislature has also enacted against a disrespectful use of the name of the Deity, or the profaning of the name of God. If we take Brigham's word for authority, he has many Elders and Bishops who give but little attention to this Act.

"A law is on the Statute book defining treason against the Territory, somewhat similar in its details to the law of Congress upon the same subject. This Act has been in existence since 1852, (R. S. p. 182.) The law is, however, in itself a nullity. The idea of treason against a Territory of the United States is simply absurd. No such crime as treason against a Territory, is known to the law. Like other objectionable enactments, the Legislature has heretofore refused to remedy it, even after attention has been repeatedly directed thereto.

BY PACIFIC TELEGRAPH.

[SPECIAL TO THE DAILY UNION VEDETTE.]

Cleveland, Ohio, Dec. 23d.

A mail train on the Cleveland and Pittsburg road broke through the bridge at Hudson this morning. Six men were killed; no details.

New York, Dec. 23d.

The Times special in Franklin, Tenn., 22d says: The rebel retreat from Franklin to Duck river beggars all description. Hood told his corps commanders to get off the best way they could with their commands. The rebel army is now beyond the Columbia. The railroad is but little impaired, trains run to Spring Hill. Our telegraphic communication is all right in all directions. Johnsonville is not destroyed. The rebel loss during the late campaign is seventeen thousand men, fifty-one cannon and eighteen general officers. The number killed at Franklin is one thousand five hundred; wounded thirty-eight hundred, and one thousand prisoners. Before Nashville, and in retreat to Columbia, the rebels had three thousand killed and wounded, and lost eight thousand prisoners. The Union loss at Franklin is two thousand, and before Nashville less than four thousand. The total Union loss will not exceed seven thousand, with two generals slightly wounded. Hood has a pontoon bridge above the shoals on the river, where our gun boats cannot reach them. Hood marched on Franklin with 40,000 men and sixty five pieces of artillery. He will have lost nearly half his men.

Washington, Dec. 23d.

The Republican says: The government has received a dispatch from Gen Grant, at City Point, announcing that a Richmond paper of yesterday, 22d, contains an official dispatch from Gen. Bragg to Jeff. Davis, dated Fort Fisher, New Inlet, N. O., Dec. 21st, as follows: The entire fleet of the enemy is in sight, but cannot operate on account of the weather which continues bad. We are about to hold Wilmington.

New York, Dec. 23d.

The Washington Republican of last evening says: The government is informed that Breckinridge is flying before Stoneman and Burbridge, who are pressing on his rear and flank.

Washington, Dec. 23d.

Admiral Porter, under date of Dec 15th, informs the Navy department of the destruction of the blockade runner Petrel, being driven ashore by our gunboats, at New Inlet. The petrel was fired on and sunk, and finally destroyed by a north-east gale. She had on board a large cargo of arms and ammunition. Porter reports, that within the last fifty days his fleet has captured and destroyed five and a half millions worth of property in blockade runners.

A letter from the army of the Potomac says: Quiet continues to prevail here. The weather is such as to prevent any move if intended. A large number of officers are going home on furlough.

Nashville, Dec. 23d.

The latest accounts from the front locate Thomas' Head Quarters at Rutherford hill, yesterday morning, eight miles this side of Columbia. Since that time our forces have crossed Duck River and moved to a point south of the Columbia. Our cavalry force crossed Hunter's ford, below the Cumberland, and dashed into the town, the enemy meanwhile retreating without firing a shot. We captured about fifty stragglers. The rebel force was at Pulaski yesterday, probably followed by our cavalry. No particular damage was done the town of Columbia by the passage through of two armies. At least one-third of Hood's men were without arms and equipments; everything which impeded their flight has been thrown away. Rebel deserters and prisoners report the only effective corps in Hood's army to be S. D. Lee's. Forrest effected a junction with Hood, at Columbia, Tuesday.

New York, Dec 24th.

General Davidson and his division of Union cavalry, some accounts of whose raiding operations in the lower parishes of Louisiana was some time ago re-published from rebel papers, arrived safely at [illegible] from Baton Rouge, which place he left on the 27th ult. They moved through the southern portions of Louisiana, Mississippi and Alabama, and the western portion of Florida, meeting with little opposition, destroying large quantities of rebel army supplies, occupying a number of towns, tearing up railroad tracks, burning bridges, capturing a number of prisoners, two valuable mails and inflicting immense damage generally on the enemy. Their operations caused great consternation among the rebels in the country through which they passed. Their entire casualties were two killed, eight wounded and forty captured. Rebel guerrillas and bushwhackers continue their depredations on plantations along the Mississippi river above New Orleans, but have nearly ceased firing on unarmed transports.

The Richmond Examiner of the 21st has an indefinite report that the rebel Breckenridge had two engagements with national forces under Gen. Burbridge or Stoneman last Sunday morning, near Glade Spring, southwestern Virginia, in which we defeated them and compelled them to retreat precipitately toward East Tennessee.

The rebel salt works at Saltville, are reported safe, though it was believed the lead works at Marion were destroyed.

The rebel Col. Scott, in an order dated Clinton, La., directs that all prisoners caught going in the direction of the Union lines with cotton, to sell to the Yankees, shall be punished with 100 lashes each.

Some Richmond editors, writhing and smarting under the late successive disasters to their army, abuse Jeff Davis in severe language, charging his meddling in military affairs as the cause of all their misfortunes.

The Sentinel of the 22d says: It is reported that the Yankees have evacuated Plymouth, N. C. They have not occupied Washington.

An extensive fire occurred in Beekman street last night; loss $150,000.

The Richmond Examiner of the 21st says: Their army in Tennessee has been terribly mauled, and has suffered awful injury, but it may be restored to full efficiency by the hand that did it after Missionary Ridge. (Johnson.)

The same paper of the 20th says: Government has received official dispatches from Savannah the 19th, saying all is well.

Fortress Monroe, Dec. 22d.

Rebel papers contain the following:

Lynchburg, Va., Dec. 14th.

Passengers by the western train tonight, report a raid on the Virginia and Tennessee railroad at Bristol, Tenn. The enemy are supposed to be a portion of Burbridge's command from Beach Station. They advanced and entered a town at 5 o'clock in the morning and destroyed a considerable amount of Government stores, an engine and train on the East Tenn. railroad, between Bristol and Abingdon. No positive intelligence as to the number of the enemy, but supposed to have been five or six thousand. A body of the enemy returned towards Bean's station, and encountered our forces at Zallacoffer, on the East Tenn. railroad, nine miles from Bristol, where a fight was said to be progressing at last accounts.

New York, Dec. 24th.

Sailed from New York, Dec. 23d—ship Twilight, for San Francisco.

St Johns, N. F., Dec 24th.

The Russian, from Liverpool, the 15th, and Londonderry the 16th, arrived off Cape Race—news unimportant. The British Emancipation society presented a congratulatory address to Mr. Adams, American Minister, upon Lincoln's re election, and American advice in view of Sherman's progress in Georgia. Hood's operations in Tennessee are regarded with the greatest interest. The London Globe thinks that at no period of the war were greater interests at stake. The London Times urges the opening of negotiations in regard to the American war, saying it must come to this at last, the sooner the better for America and the world at large.

Boston, Dec. 24th.

John M. Wood, formerly member of Congress from Maine, died this morning at the Revere House, from an attack of lung fever.

New York, Dec. 24th.

The Herald thinks Porter's attack on the Wilmington defences took place yesterday. It gives the names of the heavy vessels that are to be outside to shell Fort Fisher. They are the Colorado, Powhattan, Wabash, Minnesota, Susquehannah, and New Ironsides, all mounting 201 guns of large calibre, long range, and capable of being fired very rapidly. It is thought a few hours bombardment would reduce the forts sufficiently to allow light draft vessels to enter. The naval fight is expected after the forts are passed.

The pirate Chicamagne and Tallahassee are reported inside, and several blockade runners have been armed, and it is rumored that the rebels have some iron clads on Cape Fear river that will take part in the action. The bank of the river from the mouth to Wilmington is supposed to be partially fortified. The rebel force is estimated at 15,000. It is rumored it has been re-inforced from Charleston and Augusta. Many military and naval men think the capture of the forts and closing of the river the only objects of the expedition.

THE MORMONS ALL REBELS—THEIR POWER BREAKING DOWN.—The readers of *The Press* recollect the refusal of Brigham Young to relinquish the post of Governor of Utah, the march of Colonel (afterwards rebel General) Johnston, and the treaty with Young. But this treaty bound none but those who made it, and in October, 1862, General Connor, with a brigade, was sent to Utah, making no treaties, enforced the commands of the Government in Utah, and beat the Indians on Bear river, thus opening the gold regions of Idaho and Montana, and camped his army on a plateau overlooking Salt Lake City, where his artillery could make the adobe houses a mass of pottery at any provocation. When he first entered the valley, the prophets, little and large, declared he could never pass the Jordan, a small stream flowing into Salt Lake at their city. They said that Brigham had power from God to stop the whole command, and make further approach fatal. But, heedless of all these and other means used to stop him, with flags flying and drums beating, his command crossed the Jordan, entered the city, and the heavens did not fall. Since then he has kept them in perfect subjection. They hate him for it, and if money could move, or the earth and heaven, they would move them to have him removed. They are all rebels. Their current, open preaching has been treason for some time. Heber Kimball has announced again and again to the vast audiences in the Bowery that the "United States are no more." On the authority of God, in a prophecy of Joseph Smith, he has assured the Mormons that the North and South would annihilate each other, and they should take possession of the country; "and," said the impure vagabonds and ruffians, "what will you do with the wives and daughters whom they leave? What? Why put them to raising children!" This was said in presence of Governor Harding himself, who was seated on the platform near Brigham at the meeting. And an old fanatic and savage, whose pronunciation showed his foreign origin, cries out, with joy at this annunciation of the destiny of our American women to Mormon polygamy, "Ha-men!" But General Connor's chief hope of disarming the Mormon opposition to his government is in the mines, of which the adjacent mountains are full. There is one blast furnace already in operation, a saw-mill building to make lumber for more, and he hopes in a year or two to bring in a population of fifty thousand miners, so that the political power will pass into the hands of loyal citizens, and from that hour the supremacy of Mormon priests must fall, as nothing but the most terrible and stringent despotism can keep the Mormon masses in subjection to their stupid, mindless, and senseless superstition.—*Forney's War Press.*

We do not quite agree with the writer of the above, as there are many true and loyal men in Utah who would gladly throw off the yoke of Mormon despotism and flee to the parent government for protection, could they save their lands and household effects from confiscation by the Mormon church.

Miscellaneous Items.

SNOW on the summit of the Sierra Nevadas on the 30th of November, was ten feet deep.

THE GREAT LAKE DEFENCE.—It is reported that the United States has notified the British government of our intention to increase the armament on the Great Lakes, for the purpose of defending the frontier against the plots of rebels in Canada.

RAIN ON THE COAST.—The late rains in California, on the southern coast, from San Luis Obispo to Los Angeles have caused considerable destruction to property.

TREASURE. The total amount of treasure shipped from California during the first eleven months of this year is $51,-961,237 94.

ENGINES.—The Camanche's engines were tested at San Francisco on the 8th of December, when they worked satisfactorily.

ICE.—Professor Agassiz, in the *Atlantic Monthly*, says that North America was at one time covered with ice a mile thick.

GEN. BIRNEY.—On the breaking out of the war this officer volunteered and was made Lieutenant-Colonel of a Pennsylvania regiment, and was afterwards raised by merit to a Major-General, in command of the 10th corps.

HIGH SOLDIERS.—There are in Company K, 7th Regiment Infantry, C. V., fifteen men each over six feet high.

Local Matters.

TALK.—There is a *creature* in S. L. City who boasts in the presence of ladies what he *would not do* to the editor of the VEDETTE if he only knew him. Keep cool gentle Thomas—this cutting off above the shoulder is played out in Utah. We know you Thomas. Murderers are always cowards, for Devil could run you over the Territory with a painted stick.

FORTY dollars per foot has been offered by San Francisco capitalists for one of the gold and silver leads in Bingham Canon, twenty-three miles from S. L. City. The owner, however, refused to sell at that price. You are wrong, gentlemen, sell and thereby get money to work your other claims.

THE Christmas Eve Ball given by the Good Templars, was, without exception, the finest party we ever attended in Camp. The decorations of the hall with national colors were beautifully arranged. At the entrance, immediately over the door, was suspended the likeness of Gen. Connor. Around the hall were hung paintings of battle scenes, while in the centre was the oil painting representing, "Who will care for mother now."

Splendid music was discoursed by Langhans' band. The floor committee managed their affairs in the best style. The ladies never looked better, and the seventy couples there assembled tripped through the "mazy dance" with true Christmas merriment.

We had nearly omitted to mention the supper. It was well worthy of praise. We candidly say that a beautifully arranged table, an abundance of delicacies, and in general a splendid supper was there seen and enjoyed by all who participated.

FAREWELL ADDRESS.—We understand that it is the intention of Samuel E. W. Becker to deliver a farewell address to the members of Garrison Lodge, No. 65, I. O. G. T., this evening, in the Theater, if he remains in the Camp so long.

A DESIRABLE THING.

A WELL MADE BOOT OR SHOE THAT combines ease and comfort with that elegance and gracefulness so sought for and admired by persons of good taste and sound judgment, can always be obtained at a REASONABLE PRICE, by engaging the services of

Miners' Meeting.

At a meeting of miners, held at Messrs. Miller, Heaton & Co's. mills, pursuant to notice published in the *Daily Vedette*, for Dec. 16th, 1864. On motion of M. S. Stickney, Dr. O H. Congar was elected Chairman *pro tem*. On motion of A. Heckrikler, M. S. Stickney was elected Secretary. The object of the meeting was stated by the Chairman. Then on motion of J. A. Weller, the meeting stood adjourned, to meet at 8 A. M., Dec. 7th. 1864.

Dec. 17th, '64. Meeting opened as to previous adjournment. On motion of J. A. Miller, Dr. O. H. Congar was unanimously elected as permanent Chairman of the meeting. Then, upon motion of R. B. Chisholm, M. S. Sickney was elected as Secretary.

The meeting was then opened by the Chairman stating the object of said meeting. Upon motion of A. D. Heaton, the laws as revised Aug. 2d, 1864, were read. The meeting then proceeded to select a committee consisting of five (5.) J. A. Miller as Chairman, Dr. O. H. Congar, R. B. Chisholm, A. D. Heaton and Jas. Dixon, as said committee, to consider the Mining Law and report amendments, which were reported and adopted. Amending Article 4th, Notice 6th, Article 12th, and striking out Article 7th.

The above amendments were unanimously adopted.

The Recorder was instructed to obtain a new set of books, in which to transfer all locations heretofore recorded, and retain the old set of books for reference. Then, upon motion, Wm. P. Clark was unanimously elected as Recorder of West Mountain Mining District. On motion the meeting adjoured *sine die*.

M. S. STICKNEY, Secretary. Dr. O. H. CONGAR, Chairman.

ARTICLE 1. This District shall include that portion of territory situated in the Territory of Utah and bounded as follows: Commencing at the confluence of the river Jordan with Great Salt Lake, and running thence in a southerly direction along the east bank of the said river to its point of exit from Lake Utah; thence along the west margin of said lake to the 40th degree north latitude, (Greenwich;) thence along said 40th degree of north latitude to the eastern boundary of Tooele county; thence along said boundary to the Great Salt Lake, and from thence easterly to the place of beginning.

ARTICLE 2. The extent of a claim on any mineral vein shall be two hundred (200) feet along the lode, with a width of one hundred (100) feet on each side of the lode, including all its dips, spurs, depths, widths, off-shoots, out-croppings, variations, and all the mineral and other valuables therein contained; and priority of location shall determine the ownership of all cross or other leads traversing ground claimed under these laws. The discoverer and locator of a lead shall be entitled to one claim additional for discovery. Not more than twenty-four hundred (2400) feet shall be located on any one mineral lode, which may be taken on either or both ends of the discovery claim; all other claims located on the same vein or lode, shall be located as new discoveries.

ARTICLE 3. No person shall hold more than one claim by location, on any one vein; by purchase any number of claims may be held.

ARTICLE 4. It shall be the duty of the Recorder, whenever application is made to him, to record a claim, to go upon the ground, measure accurately said claim, and erect or cause to be erected, a mound of rocks at the point of discovery of said claim, three feet in diameter and two feet high, with a stake in the center, of sufficient height above the mound for the notice to be posted thereon, of said claim, said notice shall state particularly the distances and directions of said claim, for which recording and locating he shall receive the sum of one dollar and fifty cents ($1,50) in the currency of the United States; also, fifty cents each for all extra certificates furnished, and on the failure of the Reborder to perform such duty after receiving notice by writing, or in person, from any claimant, he not only forfeits his fees, but is subject to immediate removal from his office.

ARTICLE 5. The Recorder shall keep two series of books, in one of which to record all locations, and in the other, all transfers of claims in this district—to be styled: Book A, B and C, of Claims, and Book A, B, and C, of Transfers, in the latter of which he shall place on record all deeds of shares presented for that purpose, for which he will be entitled to receive a sum not exceeding one dollar ($1,00) in each case; and all such records, with the necessary Revenue Stamps affixed, shall be deemed legal evidence of sale or ownership, as the case may be.

ARTICLE 6. Upon each location prescribed in article 4th, there shall be done fifty dollars worth of work within six months from this date, or the date of the location thereof—each individual claimant paying or working the pro rata amount of the requisite fifty dollars, or upon their failure to do so, their claims to be subject to re-location. When the said amount of fifty dollars worth of work shall have been done, the Recorder shall grant certificates of Real Estate, or realty to each claimant, who has complied with these laws; also upon all the claims upon which the requisite amount of work has already been done, the Recorder shall certify accordingly, upon application of the claimant or claimants, provided, however, that should the claimants be prevented from working by local insurrection or rebellion, their claims shall not be forfeited; and provided further, that no claim belonging to a Soldier shall be subject to re-location until six months shall have elapsed after his discharge from the service of the United States, unless he shall sign an agreement or articles of incorporation to the contrary.

ARTICLE 7. All claims shall be recorded within ten days after a notice of location shall have been posted thereon; but, a notice filed for record in the Recorder's office, shall be considered in all cases, equivalent to a record.

ARTICLE 8. Locators on veins of Coal or Iron, shall be entitled to five hundred (500) feet for each location, and five hundred (500) feet additional for discovery; and in all other respects shall be subject to, and enjoy all the privileges and immunities of these laws.

ARTICLE 9. All voters at meetings to regulate mining interests, shall be claim-owners in this District.

ARTICLE 10. All meetings for the purpose of election, or changing these laws, must be called by posting written notices in at least three public places in the District, or by publishing the same in some newspaper printed in the Territory, nearest this mining District, said publication to be made by the Recorder or ten actual claim holders, in either case, during at least twenty (20) days previous to such meeting, stating the object thereof

ARTICLE 11. All examinations of records shall be made in the presence of the Recorder or his Deputy. When relieved, the Recorder shall turn over to his successor all books and papers pertaining to his office. He shall have a seal, and attest all acknowledgments and certificates made by him; Provided, that he may use his private seal until the proper seal of office shall be procured.

JNO. A. MILLER,
Chairman Committee on Revised Laws and Amendments.
